

Prebys Cardiovascular Institute, located on the Scripps Memorial Hospital La Jolla campus, will provide the most advanced treatment and surgical options for cardiovascular diseases, and serve as a center for medical research, clinical trials and graduate medical education.

Scheduled to open in 2015, the \$456 million, seven-story, 383,000-square-foot tower will usher in a new era of medicine and transform heart care for generations to come.

**Scripps. Where greater things happen.**

## SCRIPPS CARDIOVASCULAR CARE

**#1**

REGION'S LARGEST HEART CARE PROGRAM
