About the Course

The Scripps Clinical Hematology and Oncology conference is designed for hematologists, oncologists, surgeons, radiation oncologists, internists, and others desiring an update in these specialty areas. The primary objective of this course is to bring together clinicians and leading experts in diverse areas of hematology and oncology, affording them an intimate environment in which to discuss new clinical developments and significant advances. Our annual program is a nationally accredited continuing medical education conference and is one of the largest annual hematology/oncology meeting held in the West, among others such as ASH, ASCO and the San Antonio Breast Meeting. This conference is one of the few that combines topics in both hematology and oncology.
